It's easy to set up alerts. To set up alerts from a PC, just log in to Online Banking and click **"My Settings"** in the top right corner of the screen.

Once you are inside the **"My Settings"** page you will look to the bottom of the page and click on **"Alerts & Notifications."**

Once you are in the **"My Settings"** page you can set alerts by simply clicking on **"Alerts & Notifications."**

Once you click on **“Alerts and Notifications”** you will see a list of alerts, and you can set your own dollar limits for the alerts.
